Extsy was conceived in April 2024 as a next-generation crypto exchange, created with the mission to make crypto simpler, sharper, and more rewarding for a global, digitally connected community.

By 2025, that vision had grown into a lifestyle brand. We began designing products that are reliable, inclusive, and delightfully simple for real users across devices and daily routines, meeting people where they are today and guiding them toward what comes next.

To carry that mission into everyday use, we anchor the experience in a single connective system powered by the XTSY token. Users can see and feel it as it links products, unlocks benefits, and steadily rewards loyalty.

**As the ecosystem expands, Extsy will complete the XTSY token sale in September 2025.**

**Description:** Extsy opens access to practical opportunities and benefits at home and abroad. With XTSY, you can use a suite of services and redeem tokens for digital vouchers, travel, lower trading fees, and more. The platform blends reliable technology with personal choices, so each transaction becomes a step toward a more rewarding journey. This is Extsy, where the power of XTSY helps you do more with confidence.

**Offer Terms:** The XTSY token is designed for ecosystem rewards, staking, and trading fee discounts. It does not represent equity, debt, or voting rights in the Extsy Exchange. Token availability, rewards, and staking APRs are subject to change based on market conditions, regulatory requirements, and platform policies.

Cryptocurrency often feels daunting when exchanges primarily present it through trading. Many people are not traders, and they look for everyday utility instead. That is the gap Extsy chooses to close.

We show that crypto enables the life you want to live, one practical step at a time. As a lifestyle brand focused on deep value and consistent experiences, our next-generation exchange supports that vision and serves the journey from first use to everyday habits.

---

**Our purpose** is to connect crypto with lifestyle through XTSY, our native token. It unlocks real-world benefits, including discounted travel, gift cards, eSIMs, cashback rewards, everyday payments, and merchant discounts.

With XTSY staking, Extsy lowers risk and operating costs while passing those savings to users, and through partnerships with high-quality brands, brings deep value and rewards wherever they go.

## Presale

Extsy will run a public presale that gives early supporters access to XTSY on preferential terms. After the presale concludes, a public sale will follow. To keep the process simple and fair, please review the steps below.

### Presale Eligibility Criteria:

1. Connect your wallet on the Extsy presale page and sign a short message to whitelist your address.
2. After confirmation, your address becomes eligible to purchase tokens during the presale window.
3. To participate, make sure your wallet is whitelisted by 10 September.
4. Participation remains subject to the legal and compliance rules outlined earlier, including any jurisdictional restrictions.

**Presale:** To join the presale, users need to whitelist their wallets by September 10th.

## Burn Mechanism

Beginning in Q4 2025, Extsy will introduce a structured burn mechanism.

Each quarter, 25% of Extsy's gross trading fee revenue will fund buybacks of XTSY, and the repurchased tokens will then be burned and permanently removed from circulation. This approach links platform activity to token supply in a clear, predictable way and supports a healthy, transparent economy, consistent with the program terms outlined above.

Participating in the XTSY token sale, staking, and rewards programs carries inherent risks. To maintain clarity of expectations, please review the terms below. By engaging in any offer, you acknowledge and accept them.

- **Market volatility:** The value of XTSY can shift sharply. Extsy does not commit to maintaining any specific market price for XTSY.
- **No guaranteed value:** Discounts and cashback do not have a fixed cash value. Rewards paid in XTSY may be worth less or more at the time you redeem them.
- **Risk of capital loss:** You may incur losses if the token price declines. Participating in staking, trade-to-earn, or reward campaigns can result in a partial or complete loss of token value.
- **Not a financial product:** XTSY is a cryptographic token that unlocks exchange, lifestyle, and community benefits. It is not an investment product and does not guarantee income or appreciation.
- **Program adjustments:** Extsy reserves the right to modify, suspend, or cancel reward structures and offers at its discretion, without prior notice.
- **Regulatory and jurisdictional risks:** Benefits can vary by country, and some features may be restricted in certain regions.
- **Third-party risks:** Lifestyle benefits rely on external providers. Extsy is not liable for interruptions or failures in services delivered by partners.
